

Organised by BEAM Society Limited

Technical Visit to Sky Bridge

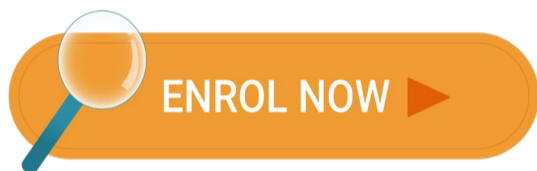

Discover the marvel of sustainable design at Hong Kong International Airport's Sky Bridge! This 200-meter-long airside bridge, connecting Terminal 1 (T1) and the T1 Satellite Concourse (T1S), receiving BEAM Plus New Buildings' final platinum rating from the Hong Kong Green Building Council.

Standing 28 meters above a taxiway, it is the world's longest airside bridge, accommodating the A380 aircraft underneath. With the exterior glazing and glass floor installed on the bridge, you can enjoy the extraordinary experience of an aircraft passing beneath their feet. With the unique panoramic view across the airport, Sky Bridge offers the highest viewpoint of the airport for passengers.

2 CPD hours for BEAM Pro and BEAM Affiliate

The CPD hours will be automatically uploaded to attendees' BEAM Pro / BEAM Affiliate Individual Account; Certificate of Completion will be issued via email within 1 month after course completion.

- Date:** 20 Sept 2024 (Friday)
- Time:** 3:00pm – 5:00pm
- Location:** Hong Kong International Airport North Satellite Concourse
- Language:** Cantonese

Speaker

Mr Eric LOK
*Senior Manager,
 Capital Works Management Department,
