EPD-MTR JOINT ENVIRONMENTAL FORUM

2023/2024

CARBON NEUTRALITY AND CLIMATE RESILIENCE

Highlight

MTR Corporation strives to contribute to the sustainable development of society. Reduction of greenhouse gases is a major environmental objective of the Corporation. Over the past year, MTR has actively implemented a series of "green" initiatives to reduce carbon emissions, supporting Hong Kong in achieving carbon neutrality by 2050. How can we achieve carbon neutrality? How can we become more resilient to climate impacts? Please come and join the event.
