

# MTR KNOWLEDGE ENVIRONMENT

## EPD-MTR JOINT ENVIRONMENTAL FORUM 2024

### Environmental Compliance Practices and Carbon Neutrality in Actions

#### HIGHLIGHT

MTR Corporation strives to achieve environmental excellence and carbon neutrality by 2050. As an operator of a reliable, safe, efficient and environmentally friendly transportation system, we are playing our part in supporting Hong Kong's decarbonisation journey.

Apart from fulfilling environmental statutory requirements and adopting "green" initiatives for design and planning to reduce environmental impact and carbon emissions, we continue to incorporate innovative environmental, green and low-carbon measures in the construction and operation. Please join us to put environmental compliance and sustainability into practices, and transfer commitment into actions.
