

The Henderson – Behind the Scenes

The Henderson is renowned for its breathtaking, impregnable structural forms and layering of a Bauhinia bud about to blossom. Its unique shapes and volumes are achieved by six mega-columns and one side core steel structure. The carrying capacity of the Henderson has surpassed the criteria and redefines the standard for a skyscraper.

The Henderson has garnered multiple top-tier awards, accolades and top certifications in global and local sustainability and green building standards, including but not limited to:

- BEAM Plus New Buildings Version 1.2 Provisional Platinum
- buildingSMART International Open BIM Award 2022
- Hong Kong Quality Building Award 2024
- LEED Core and Shell - Platinum Level Pre-Certification
- WELL Core and Shell - Platinum Level Pre-Certification

Date: 14 May 2025 (Wednesday)

Time: 3:00pm - 4:30pm

Course Code: M-2025-0514

Location: 2 Murray Road, Central, Hong Kong

Language: Cantonese supplemented with English when appropriate

Mr Vincent YEUNG
Project Manager

Ms Sherry ZHENG
Deputy Project Manager

The image displays a comprehensive list of professional associations and organizations in Hong Kong, arranged in a grid-like fashion. Each entry typically consists of a logo on the left and the organization's name in English and/or Chinese on the right. The organizations are categorized by their primary field of expertise, such as construction, engineering, architecture, and environmental management. The logos vary in design, with some featuring stylized letters, symbols, or icons. The text is presented in a clear, professional font, with English names often appearing above or below the Chinese names. The overall layout is organized and easy to navigate, providing a quick reference for various professional bodies in the region.
