

Organised by BEAM Society Limited

## BEAM Plus New Buildings v2.0 – Stakeholders Sharing Session

First-come-first-served

### Introduction

To cope with the needs of the fast-changing industry and aspiration of the community, BEAM Society Limited (BSL) has revamped the assessment tool for BEAM Plus New Buildings (NB). It is targeted to launch the upgraded version (BEAM Plus NB v2.0) in 2019.

The major revision of BEAM Plus NB has been developed upon the prevailing trends in sustainable development of green buildings, including:

- Integrated Process
- Climate Responsive and Resilience
- Resources Consumption Awareness
- Human-centric Development
- Smart Technologies and Building Information Management

Before the official launch of NB v2.0, BSL would like to share with the practitioners on the latest development of NB v2.0 with the following focus:

1. Highlights of manual enhancement in response to the stakeholder's comments and prevailing sustainability trends
2. Useful tips and practical notes in adopting the new version
3. Insights into the basis of the manual upgrade

All BEAM Pro and BEAM Affiliate are invited to attend this sharing session. Attendees will be entitled to 2 CPD hours.

<b>Date:</b>	3 December 2018 (Monday) – English supplemented with Cantonese when appropriate
	11 December 2018 (Tuesday) – Cantonese

**Speakers****Ir CS Ho, General Manager of BEAM Society Limited**

Ir CS Ho is a practicing engineer as well as a lawyer. He is currently the General Manager of BEAM Society Ltd (BSL), the Deputy Chairman of Hong Kong Quality Assurance Agency, a Barrister-at-law at the High Court of Hong Kong, and an Honorary Principle Lecturer of the University of Hong Kong, teaching engineering and legal subjects at both the graduate and post-graduate levels.

Ir Ho has joined BSL for more than 4 years, overseeing the operation of BSL, including development of BEAM Plus tool, such as the revamping of BEAM Plus Existing Buildings (EB). Before joining the legal profession, Ir Ho had been working with Hong Kong Housing Authority as the Chief Building Services Engineer, heading the Building Services Section responsible for the design and construction of BS installations of all the new public housing development projects. Ir Ho is a Chartered Engineer, a fellow of the Chartered Institution of Building Services Engineers and a Corporate Member of Hong Kong Institution of Engineers (HKIE).

**Antony Ho, Associate of Arup Building Sustainability Group**

Antony is an experienced professional practicing sustainability design and green building certification, and holds rich understanding of latest standards and exemplar practices.

He is an experienced green building expert, managing groups of design and construction parties concerning sustainability, and implementation of sustainability initiatives into various planning design, building solutions and engineering services. He has handled over 40 large scale sustainable developments.
