

BEAM Plus Neighbourhood (ND) Training and Examination

What is BEAM Professional (BEAM Pro)?

BEAM Professionals (BEAM Pro) are green building professionals accredited by the Hong Kong Green Building Council in various aspects of the green building life cycle. The key role of BEAM Pro is to integrate the latest green building standards and practices into everyday building planning, design, construction and operation. BEAM Pro will be responsible for advising the project team on achieving the required credit to attain the client's desired green building rating level.

To cope with the ever-evolving green building practices and developments, the BEAM Pro specialty credential accredits professionals by their specialisation in one or multiple BEAM Plus Assessment Tool(s). BEAM Pro qualifications with specialty include BEAM Pro (NB), BEAM Pro (EB), BEAM Pro (BI), BEAM Pro (ND), BEAM Pro (NDC) and BEAM Pro (EDC).

About BEAM Pro Training and Examination

The BEAM Pro Training and Examination is organised by BEAM Society Limited (BSL). Green building practitioners aiming at gaining the BEAM Pro accreditation **are required to complete the online Fundamental Course** on **BSL's Online Training Portal** as a prerequisite before opting into any of the elective courses below:

- BEAM Plus New Buildings (NB)
- BEAM Plus Interiors (BI)
- BEAM Plus New Data Centres (NDC)
- BEAM Plus Existing Buildings (EB)
- BEAM Plus Neighbourhood (ND)
- BEAM Plus Existing Data Centres (EDC)

After completing the training, candidates are required to take and pass the examination to gain the credential.

About BEAM Plus Neighbourhood (ND) Training (ND-2017-1024 / ND-2017-1024S)

BEAM Plus Neighbourhood (ND) helps define performance criteria for the masterplan of a development project through a range of sustainability indicators including socio-economic and environmental aspects. The tool aims to apply sustainability principles at the early or inception stage of a project with emphasis on community engagement, placemaking, sustainable living, ecology and outdoor environmental quality. In addition to the current framework of BEAM Plus, a new aspect, Community Aspects, is added to embrace the community and social elements of a development.

Form of Training: Video Course

Language of Instruction: English

Framework and Innovations (FI)	Community Aspects (CA)	Site Aspects (SA)	Materials and Waste Aspects (MWA)
Energy Aspects (EA)	Water Aspects (WA)	Outdoor Environmental Quality (OEQ)

Examination Schedule

The examination schedule is available on the Yearly Training Plan on BSL's current news webpage. BSL would inform the registered candidates the examination details according to course enrolment and venue availability. Candidates are strongly advised to settle the course payment and reply email to BSL in order to secure the examination seats.

Should a candidate reschedule an examination session after BSL has already sent out a confirmation email, an administration fee of HK\$600 would be charged.

Upon successful registration of this course with payment, candidates are required to sign up for the examination by the end of next year. No late exam registration would be accepted after the abovementioned timeframe. Candidates who miss the deadline would be requested to re-enrol the fundamental course by full payment.
