[Webinar] Introduction of Food Waste Grinders into BEAM Plus New Buildings Assessment

Introduction

At present, most of Hong Kong's food waste is disposed of at landfills together with other municipal solid waste (MSW). In 2019, there some 11,057 tonnes of MSW were disposed of at landfills each day. Of these, about 3,350 tonnes (30%) were food waste, constituting the largest MSW category being landfilled.

Reducing food waste disposal at landfills is an important part of the Government's vision to achieve "Waste Reduction • Resources Circulation • Zero Landfill" as set out in the Waste Blueprint for Hong Kong 2035.

In view of this, the **Environmental Protection Department ("EPD") and BEAM Society Limited ("BSL")** co-organise this webinar with an aim to sharing with stakeholders experiences from local suppliers of food waste grinders and an organisation running related projects funded by the Environment and Conservation Fund on using food waste grinder as an option for treating household food waste.

The representative from BSL will also talk about the recognition of the environmental merit under BEAM Plus.

Speakers

Representatives from Local Suppliers

- 1) Mr. Philip Chan, Managing Director, Alliance Ascent Holding Limited
- 2) Mr. Franco Lee, Project Manager, Shun Hing Electric Works and Engineering Co., Ltd.
- 3) Mr. Vitus Chiew, Key Account & Business Development Manager, Franke Asia Sourcing Limited

Representatives from ECF Projects running organisation

- 1) Mr. Victor Chow, Project Officer, Green Projects
- 2) Ms. Ming Tam, Project Officer, Green Projects

Representative from BEAM Society Limited
