

3	MATERIALS ASPECTS	3.3 WASTE MANAGEMENT	
		MA 11 CONSTRUCTION WASTE REDUCTION	
	EXCLUSIONS	None.	
	OBJECTIVE	Encourage best practices in the management of waste, including sorting, recycling and disposal of construction waste.	
	CREDITS ATTAINABLE	2	
	PREREQUISITES	Compliance with the Waste Disposal (Chemical Waste) (General) Regulation.	
	CREDIT REQUIREMENT	1 credit for demonstrating that at least 30% of construction waste is recycled. 2 credits for demonstration that at least 60% of construction waste is recycled.	
	ASSESSMENT	<p>The Client shall present documentation and photographic evidence quantifying the amount of construction waste recycled as a percentage of total construction waste in the form of a report prepared by a suitably qualified person. Excavated waste will not be considered as part of the construction waste. The disposal of inert waste to public fill will not be considered as an acceptable strategy for fulfilling this requirement.</p> <p>Where at least 30% (by weight or by volume) of all waste generated on site can be shown to have been recycled, the credit shall be awarded. Where the percentage is 60%, the second credits shall be awarded.</p> <p>The Client's representative on site shall be responsible for monitoring and reporting on the execution of the instructions and shall confirm through monthly reports the extent to which recycling and sorting has been achieved. ETWB TWC 19/2005 [1] should be used as a guide to the nature of reporting and recording keeping. The Client shall demonstrate that all waste and disposal are conducted in an environmentally friendly manner.</p>	<div>1</div> <div>2</div> <div>3</div> <div>4</div>

1 Environment, Transport and Works Bureau. Technical Circular (Works) No. 19/2005. Environmental Management on Construction Sites. <http://www.devb.gov.hk/filemanager/technicalcirculars/en/upload/19/1/C-2005-19-0-1.pdf>

Circular Letter No.: 2018.142

Issue Date: 8 January 2018

Application: BEAM Plus NB Version 1.1 & 1.2

Effective Date: 8 January 2018

MA 10 Demolition Waste Reduction and MA 11 Construction Waste Reduction

This Circular Letter provides elaboration for the assessment of the captioned credits as follow:

1. The disposal of inert waste to landfills, fill Banks, sorting facilities, fill barging points, public fill reception facility, other construction waste disposal facilities, etc. will not be considered as an acceptable strategy for fulfilling this requirement. Waste handled by specialist Third Party Contractor could be considered as an acceptable strategy for fulfilling this credit requirement. 5
6
2. The Applicant shall submit a copy of the Contract/ Agreement specific to the project site, detailing the following: project/ site name, date, estimated C&D tonnage, intended use of the C&D waste and other terms. The Applicant shall also compile and submit a summary table with collection receipt(s) attached. The summary table shall include for each collection: date, vehicle registration number, weight tonnage collected, and type of material collected. 7
